The Triple K Manufacturing Story

In celebration of 70 years in business, Triple K Manufacturing would like to honor the generations of workers, shooting enthusiasts, and law enforcement professionals that have trusted us to provide world-renowned shooting accessories and duty gear. Our team of more than 70 craftsmen are committed to providing "Made in America" quality and value second to none.

In 1946, Colonel Leo Kraiss returned to San Diego and opened a business with his father Hermann specializing in GI surplus under the Kraiss’s name. In 1952, Leo’s son Jerry, an avid outdoorsman and shooter joined the family business. Jerry’s emphasis on innovation and expanding the range of tactical and shooting accessories was well received. Jerry renamed the company Triple K Manufacturing after his three children, Kim, Kurt, and Karen. In 1994, Jerry’s son Kurt took the leadership helm as President and focused on product diversification, international markets, and advocacy for "Made in America" products while our competitors continued to offshore production. Triple K Manufacturing now operates in three plants (three plants within our 48,000 sq ft production facility located in the Rancho Bernardo neighborhood of San Diego, CA). Our Premium Leather operation produces a wide selection of leather shooting accessories ranging from holsters to shoulder bags as well as other unique leather items for various other markets. Our Firearms Magazine operation provides the widest selection of aftermarket handgun and rifle magazines in the world. We currently provide handgun and rifle magazines for over 1000 new and vintage firearms. Our Vintage Guns operation manufactures over 1000 models of vintage guns, butt stocks, and accessories. If your favorite firearm is a new model or a cherished family heirloom, it's likely that Triple K has an accessory for you to enhance your shooting pleasure.

As we celebrate this 70-year milestone, we renew our commitment to our customers, vendors, and employees to exemplify the spirit of "Made in America" and preserving our 2nd Amendment American Heritage.

How To Order

GUN GROUP NUMBER
To ensure that your gun and your new Triple K holster match exactly for a custom fit, simply specify the Gun Group Number and the barrel length.

The following is a list of options available. Refer to the item you are ordering to determine which are applicable. Please be as specific as possible.

• Style Number
• Finish: Plain, basket weave, or floral carved.
• Color: Black, walnut oil, or tan.

Good leather stretches slightly with prolonged use. Since Triple K’s leathers are the finest, we’ve allowed for the natural expansion of the holster body by tightening the fit during the molding, bonding, and stitching of our holsters. A secure, safe fit is therefore always assured.

So tight it seems that gun was made for the holster.

• If your handgun is not listed, please call our customer service department for availability.

Note: Various holsters will accommodate more than one gun. If there is a number instead of a dot, please order that gun group number for that style holster.

Triple K Manufacturing Company’s products are manufactured of top quality materials. Holsters are made to fit and function satisfactorily with factory standard firearms.

We caution against the use of custom, worn or broken guns, and guns of basically inferior quality. We also caution against the use of any accessories which might interfere with the proper and safe fit of the gun in the holster, including such accessories as oversize hammers and triggers, trigger shoes, oversize grips and grip adapters.

Triple K Manufacturing Company cautions against the use of its products by persons untrained or inexperienced in the use of firearms. Careless or negligent usage of any firearm with or without these products may be dangerous and result in injury or death. Fingers must keep clear of the trigger and hammer when inserting or removing a firearm to or from a holster. Violent physical activity may cause any firearm to fall from any holster. The purchase and use of these products is done at the sole and exclusive risk of the user and/or buyer. The manufacturer and its distributors expressly limit their liability to the repair or replacement, at the manufacturer’s discretion, of any Triple K product determined to be defective in workmanship or materials at the time of purchase. Products have been inspected prior to shipment from the manufacturer; however, the user/buyer should inspect the product before use.
